

Youth Demands

1. Pittsburgh declares a Climate Emergency. We must embrace the state's constitutional amendment – **The people have a right to clean air, pure water, and to the preservation of the natural, scenic, historic and esthetic values of the environment.** Pennsylvania's public natural resources are the common property of all the people, including generations yet to come. As trustee of these resources, the Commonwealth shall conserve and maintain them for the benefit of all the people.
2. The petrochemical industry will exacerbate greenhouse gas emissions in our region and the world. **Methane has an atmospheric warming potential of 20 to 30-times more than carbon dioxide**, but its effects are short-lived (about 9-12 years). Carbon Dioxide can continue to cause global warming for more than 1000 of years.
3. That Pittsburgh transitions to 100% renewables by 2030

GLOBAL CLIMATE STRIKE

September 20

Speakers 12pm-2pm

Rally 2pm-4pm

@FridaysForFuturePGH

#FridaysForFuturePGH

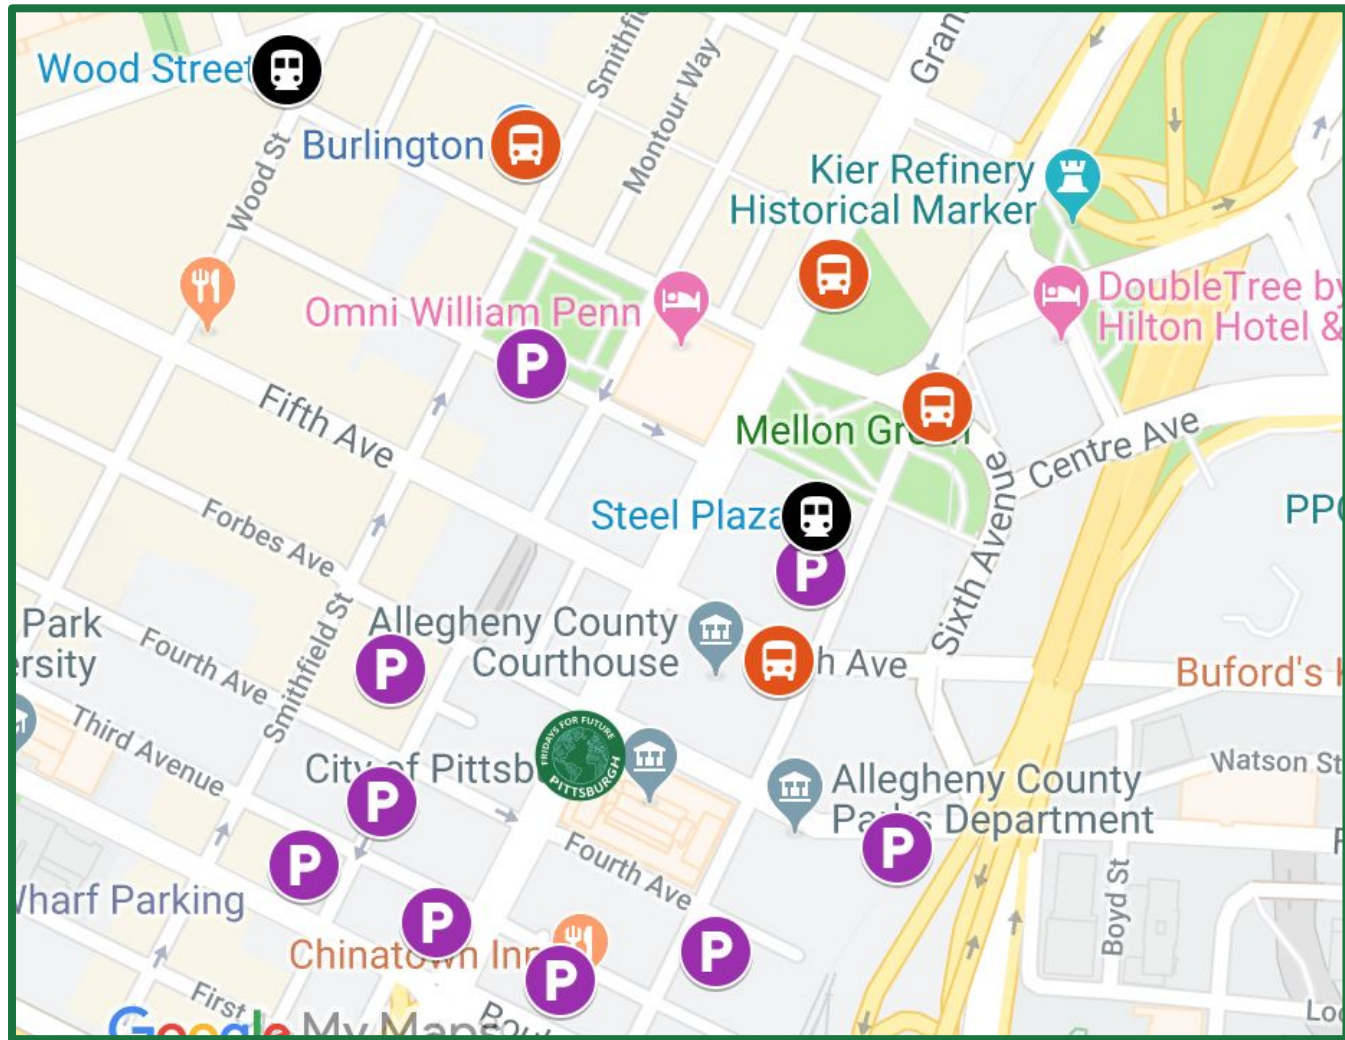

What do you do next?

- Become educated on the things that contribute to climate change like fossil fuel extraction.
- Talk to your friends about what you have learned and how they can get involved.
- Write to your local officials and state representatives to tell them why it's so important to your future that they take action now.
<http://bit.ly/findlegislator>
- Make sustainable choices for energy use, lifestyle, and diet...even small choices help
- Follow local environmental groups on social media to stay in the know.
- Get involved with local groups listed in this document by volunteering your time to help canvas or educate others.

**Today We Strike,
Tomorrow We Vote!**
